

WayInsight

Developer Website Brief

Complete Specification for a World-Class Public Website

Prepared By	Sumant Kumar Yadav – Founder & CEO, WayInsight
Document Type	Website Developer Brief – Full Specification
Services	AR Learning · VR Learning · AI-Powered Education Tools
Target Quality	World-class – Linear, Stripe, Notion, Vercel, Anthropic
Target Market	Government & Private Schools across India – Classes 6-8
Year	2026

CONFIDENTIAL · FOR DEVELOPER AND INTERNAL USE ONLY · 2026

SECTION 01

Project Overview

WayInsight is an India-based EdTech startup that delivers three core services directly into school classrooms: Augmented Reality (AR) learning sessions, Virtual Reality (VR) learning sessions, and AI-powered education tools — all at zero upfront cost to schools. Founded by Sumant Kumar Yadav (MBA, IIM Sambalpur), WayInsight targets government and private schools across India, serving students in Classes 6 to 8.

This document is the complete specification for the web development team. The goal is a world-class public marketing website comparable to Linear, Stripe, Notion, Vercel, and Anthropic — clean, fast, credible, and built to convert school principals, government officials, CSR partners, and investors.

Company at a Glance

Company	WayInsight
Founder & CEO	Sumant Kumar Yadav — MBA, IIM Sambalpur (Batch 2025-27)
Stage	Planning / Pre-Launch · 2026
Sector	EdTech · Immersive Learning · AR/VR/AI Education
Core Services	AR Learning · VR Learning · AI-Powered Education Tools
Target Market	Government & Private Schools, Classes 6-8, across India
Model	Pay-Per-Session · Fully Managed End-to-End Service
USP	Zero upfront cost to schools — WayInsight owns all hardware & tech
Email	iamsumant333@gmail.com
Phone	+91 7857943915
Tagline	Insight Today. Impact Tomorrow.

Mission: To bridge the gap between imagination and understanding by delivering curriculum-aligned AR, VR, and AI-powered learning experiences directly to students — at zero infrastructure cost to any school, anywhere in India.

Vision: To become India's leading immersive learning company — making world-class education technology accessible and affordable for every student, in every school, in every state.

SECTION 02

The Three Core Services

WayInsight offers three distinct but complementary services. All three are delivered as a fully managed service — the school pays per session and WayInsight handles everything else.

Service 01 — Virtual Reality (VR) Learning

What it is	A fully immersive 3D learning experience. Students put on VR headsets and step inside the concept.
Examples	Stand on the surface of Mars · Walk through the human heart · Watch tectonic plates collide · Witness a volcanic eruption from inside
Hardware	Standalone VR headsets (Meta Quest / Pico) — no PC, no cables, no school IT setup required
Session length	45 minutes — fits within a standard class period
Subjects	Science (Physics + Biology) · Geography · History & Social Studies
Classes	6, 7 and 8 — fully aligned with NCERT and state board curricula
Science of it	People retain up to 75% of what they experience vs 10% of what they read (Edgar Dale). VR encodes spatial, emotional memory that textbooks cannot replicate.

Service 02 — Augmented Reality (AR) Learning

What it is	Digital 3D content overlaid onto the real world — viewed through a tablet or AR device
Examples	Point a tablet at a textbook page → 3D plant cell appears, rotatable and interactive · Tap organelles to get explanations · Watch photosynthesis animate in real-time
Hardware	Tablets (iPad or Android) provided and managed by WayInsight — schools need nothing
Textbook link	Scans existing school textbook pages — the physical book becomes a portal into a 3D world
Best for	Biology, Chemistry, Geography — any concept with physical structure or spatial relationships
Subjects	Science · Geography · Mathematics (3D geometry, fractions, mensuration)
Advantage	No new textbooks needed. Enhances what schools already have.

Service 03 — AI-Powered Education Tools

This is WayInsight's third and most scalable service — AI-powered tools that make every session smarter, every teacher more effective, and every student's learning journey personalised.

AI Tutor	Students ask questions in Hindi or English during or after VR/AR sessions. AI gives instant, curriculum-relevant explanations tied to what they just experienced. Works offline after initial sync.
Adaptive Quizzes	AI-generated quizzes that adjust difficulty in real time based on each student's performance history. No two students see the same quiz.
Concept Gap Detection	AI analyses quiz responses and engagement data to identify exactly which concepts each student struggles with — and flags them for the teacher automatically.
Teacher Dashboard	Real-time class performance data, concept mastery heatmaps, auto-generated weekly reports. A teacher can read the full report in under 5 minutes.
Session Reports	After every session, AI generates a structured report — topics covered, engagement observations, class-level and student-level insights, recommended follow-up activities.
Admin Portal	School principals and education officers get school-wide analytics: usage tracking, learning outcome trends, and compliance reports for government schemes.
Language support	Fully bilingual — Hindi and English. All AI interactions, reports, and dashboards available in both languages.
Offline-first	All AI inference runs on-device — no cloud dependency required. Syncs data and reports when connectivity is available. Designed for schools with unreliable internet.
Technology	Large Language Models (LLMs) for the AI tutor · Custom ML models for performance analytics · Edge inference for offline operation · Unity 3D for VR content · AR Foundation for AR

Why AI Makes WayInsight Different:

Most EdTech companies deliver passive content — videos, PDFs, apps. WayInsight combines immersive hardware (VR/AR) with intelligent software (AI) to create a complete learning loop: students experience concepts in 3D, the AI reinforces understanding, and the teacher gets actionable data. This three-layer system — Experience + Intelligence + Insights — is what separates WayInsight from every competitor in India.

SECTION 03

Website Goals & Target Audience

This is a public marketing and credibility website — not a portal or app. Its purpose is to communicate WayInsight's three services, founder story, and mission — and drive partnerships with schools, government bodies, and investors across all of India.

Target Visitor	What They Should Do on the Website	Priority
School Principal / Head Teacher	Book a free demo session	HIGH
District / Block Education Officer	Contact Sumant for government partnership	HIGH
State Education Department	Understand Samagra Shiksha alignment and contact	HIGH
CSR / Corporate Partner	Reach out to fund school sessions	HIGH
Potential Team Member	Understand the mission and apply for open roles	MEDIUM
Potential Advisor / Mentor	Express interest in joining the advisory board	MEDIUM
Investor / Funder	Understand the business model and request a meeting	MEDIUM
Media / Press	Find company info and contact details	LOW

Design Benchmark — Websites to Study

Website	URL	What to Take From It
Linear	linear.app	Dark hero, typography, motion, scroll animations
Stripe	stripe.com	Trust signals, layout clarity, section rhythm
Notion	notion.so	White sections, bento grid, feature showcase
Vercel	vercel.com	Dark/light balance, technical credibility
Anthropic	anthropic.com	Mission-led narrative, minimal, elegant
Framer	framer.com	3D hero interactions, smooth transitions

Core Design Principle: Clean, fast, trustworthy. NOT a cluttered Indian startup website with stock photos and generic copy. Think Apple — say more with less. The website should feel like it was designed by someone who has studied Stripe and Linear for a year.

SECTION 04

Site Structure — Pages & Sitemap

Route	Page	Key Sections
/	Home	Hero · What We Do (3 services) · The Problem · How It Works · CTA
/services	Services	VR Learning · AR Learning · AI Tools · Session Format · Content Library · Pricing
/about	About	Founder Story · Mission & Vision · Values · Team · Mentors (Coming Soon)
/contact	Contact	Contact Form · Direct Info · Partner Type Selector · Why Partner

Navigation Bar

Logo	Top-left — logo image only. Clicks to Home.
Links	Home · Services · About · Contact Us (green CTA button)
Scroll state	Transparent on hero → white glass blur on scroll (backdrop-filter: blur(20px))
Mobile	Hamburger → full-screen overlay menu
Active state	Current page link gets underline or bg highlight

Footer

Background	Deep navy (#0a1628)
Columns	4: Brand + tagline · Navigate · Services · Company
Bottom bar	Copyright · "Insight Today. Impact Tomorrow." · Made in India
Social	LinkedIn · Twitter/X · Email icons

SECTION 05

Page-by-Page Content Specification

5.1 Home Page (/)

HERO SECTION

Background	Deep navy (#0a1628) — full viewport height
3D Animation	Three.js particle field — green/white/amber particles with mouse parallax. Rotating torus rings and wireframe icosahedra in background.
Badge	"Immersive Learning for Schools Across India · 2026" — pill with green pulsing dot
H1 Title	Line 1: "Transforming" Line 2: "Classroom Learning" Line 3: "into Immersive Experiences" (green gradient)
Subtitle	"WayInsight brings AR, VR, and AI-powered learning into school classrooms across India — making every subject unforgettable. Zero upfront cost. Curriculum-aligned. For every student."
CTA buttons	Primary: "Explore Our Services" (white) · Secondary: "Partner With Us" (outline)
Stats strip	"1.5M+ Schools in India" · "250M+ Students" · "3 Services: AR + VR + AI"

WHAT WE DO — 3 SERVICE CARDS

Layout	3-column card grid — one card per service
Card 1	■ Virtual Reality — Students step inside 3D worlds. Science, Geography, History.
Card 2	■ Augmented Reality — Tablets overlay 3D content on textbook pages. Interactive 3D models.
Card 3	■ AI-Powered Tools — Bilingual AI tutor, adaptive quizzes, teacher dashboard, session reports.
Hover	Border glow + shadow + 3px lift

THE PROBLEM SECTION (dark navy)

Left copy	Headline: "India's Education Gap is Widening" · Problem description · CTA to About
Right stats	2x2 grid: 250M+ students · 1.5M schools · 75% retention gap · Zero VR/AR in most classrooms

HOW IT WORKS — 3 STEPS

Step 01	School books a session → picks subject and date → WayInsight handles everything
Step 02	WayInsight arrives → facilitator sets up all hardware → runs 45-min session
Step 03	School gets a report → AI-generated session report within 24 hours

CTA STRIP (green background)

Headline	"Ready to Transform Learning at Your School?"
Sub	"Schools, government bodies, and CSR partners across India — let's talk."
Buttons	"Get in Touch" · "View Services"

5.2 Services Page (/services)

PAGE HERO (dark navy)

H1	"Everything a School Needs. Nothing It Doesn't."
Sub	"Three services. One managed provider. Zero upfront cost. Built for every school in India."

SERVICE 01 — VR SECTION

Layout	Left: live Three.js animated solar system (orbiting planets, glowing sun, stars) · Right: content
Canvas	Green/amber palette. Badge: "VR Session Active"
Features	Curriculum-aligned · Trained facilitator on-site · 45-minute format · Classes 6-8 · Science, Geography, History

SERVICE 02 — AR SECTION (reversed layout)

Layout	Right: illustrated graphic (tablet + textbook = 3D model) · Left: content
Features	Standard tablets provided · Textbook-integrated · Interactive 3D models · Best for Biology, Chemistry, Geography, Mathematics

SERVICE 03 — AI TOOLS SECTION (purple accent)

This section must use a distinct visual treatment to differentiate AI from AR/VR. Recommend: purple/indigo accent colour for this section only — to visually signal "intelligence layer."	
---	--

Layout	Full-width bento grid layout — AI features displayed as interconnected cards
Section colour	Light purple tint background (#ede9fe) with purple border accents — visually distinct from green AR/VR sections
Feature cards	① AI Bilingual Tutor (Hindi + English) ② Adaptive Quizzes ③ Concept Gap Detection ④ Teacher Dashboard ⑤ AI Session Reports ⑥ School Admin Portal
Chat demo	Include a live interactive chat demo — user types a question, AI responds. Pre-loaded demo using Anthropic Claude API or static demo replies if no API.
Key message	"Not just VR content — an intelligent system that learns from every session and improves every teacher."
Offline badge	Show "Offline-First AI" badge — important differentiator for schools with poor connectivity

SESSION FORMAT SECTION

Layout	2-column: left = 45-min arc table, right = before/after workflow
Arc table	Phase Activity Time: Introduction 10min · Immersion 25min · Reflection 10min

Science box	"People retain 75% of what they experience vs 10% of what they read — Edgar Dale"
--------------------	---

CONTENT LIBRARY — 4 SUBJECT CARDS

Science	Human body, solar system, electricity, force & motion · VR+AR
Geography	Earth layers, water cycle, tectonic plates, climate zones · VR+AR
Mathematics	3D geometry, fractions, algebraic concepts, mensuration · AR
History	Ancient civilisations, freedom movement, historical maps · VR

PRICING SECTION (dark navy)

Card 1	Standard · Government Schools · Rs.3,000-5,000 per session · 40-50 students
Card 2	Premium (Most Popular) · Private Mid-Range Schools · Rs.6,000-10,000 per session
Card 3	Elite · Premium Private Schools · Rs.12,000-18,000 per session
Packages	Starter (3 sessions, 5% off) · Term (12 sessions, 15% off) · Annual (30+ sessions, 25% off)

5.3 About Page (/about)

FOUNDER SECTION

Portrait card	Dark navy card · "SKY" monogram · Name overlay · "Fame Finders 2026" amber badge · Stat tiles below: "IIM MBA" + "Age 23 Serial Founder"
H2	"From Quiet Beginnings to Bold Visions"
Para 1	Raised in Badhauna Tanra, Samastipur, Bihar. Farmer family. Bihar government school alumnus. R.B. College, Lalit Narayan Mithila University.
Para 2	At 19: Tasty Food Boutique — ranked #1 on Swiggy and Zomato among 700+ outlets in Patna. Co-founded The Bharat Service — platform connecting skilled professionals with customers.
Para 3	Now at 23, pursuing MBA at IIM Sambalpur (Batch 2025-27). Building WayInsight — the classroom he never had but always deserved. Cover Story, Fame Finders Magazine 2026.
Quote block	"I grew up in a classroom where imagination had no tools. WayInsight is my answer to that. Every child who experiences a concept come alive in VR — that is the entire mission."
Chips	Bihar Govt School Alumnus · IIM Sambalpur MBA · Serial Entrepreneur · Fame Finders 2026 · Swiggy & Zomato #1

MISSION + VISION + VALUES

Layout	2 cards top (Mission + Vision) · 6-card values grid below
Values	Equity First · Learning Over Spectacle · Reliability · Continuous Improvement · Integrity · Social Purpose

TEAM GRID (3-column, 6 cards)

Card 1	Sumant Kumar Yadav — Founder & CEO — badge: Founder (green)
Card 2	CTO / Tech Lead — AR/VR/AI Engineering — badge: Hiring Now (amber)
Card 3	Content Head — Curriculum & Content Design — badge: Hiring Now (amber)
Card 4	Operations Lead — Logistics & Delivery — badge: Hiring Soon (amber)
Card 5	Sales Lead — School Partnerships — badge: Hiring Soon (amber)
Card 6	Session Coordinators — On-Ground Facilitators — badge: Hiring First (amber)

MENTORS / ADVISORY BOARD (dashed border cards — Coming Soon)

Note	All 6 mentor cards show "Coming Soon" badge. No real names. Dashed borders → solid on hover.
Mentor 1	Education Policy Advisor — Government & Policy
Mentor 2	EdTech Industry Mentor — Startup & Product

Mentor 3	XR Technology Advisor — AR/VR/AI Engineering
Mentor 4	Government Relations — Policy & Procurement
Mentor 5	Impact Investor — Fundraising & Strategy
Mentor 6	Business Mentor — Strategy & Operations
Info bar	Green note: "Interested in advising WayInsight? iamsumant333@gmail.com"

5.4 Contact Page (/contact)

H1	"Let's Build the Future of Learning Together"
Sub	"Schools, government bodies, CSR partners, investors, and advisors across India — we want to hear from you."
Left column	Contact cards: Email · Phone (+91 7857943915) · Location (India) · Education (IIM Sambalpur MBA)
Form fields	Full Name · Organisation · Email · Phone · "I am a..." (dropdown) · Message
Dropdown	School Principal · BEO · District Education Officer · State Education Dept · CSR Partner · Investor · Team Member · Advisor · Media · Other
CTA	"Send Message" — full width green button
Why partner	4 cards: School Principals · Government Officials · CSR Partners · Advisors & Mentors

SECTION 06

Design System

6.1 Colour Palette

Role	Name	Hex	Usage
Primary Brand	Deep Green	#0d6e55	Buttons, borders, eyebrows, accents
Brand Accent	Light Green	#15a37e	Hover states, gradients, star highlights
Brand Tint	Green Tint	#e6f7f3	Card backgrounds, quote blocks, info panels
AI Accent	Indigo Purple	#7c3aed	AI service section ONLY — differentiates AI from AR/VR
AI Tint	Purple Tint	#ede9fe	AI section card backgrounds
Dark Background	Deep Navy	#0a1628	Hero, footer, dark sections
Dark Surface	Navy 2	#0d1f3c	Cards on dark, secondary dark surfaces
Warm Accent	Amber	#f59e0b	Badges, hiring tags, warm highlights
Amber Tint	Amber Light	#fef3c7	Amber card backgrounds
Page Background	Pure White	#ffffff	Main page background
Alt Background	Off White	#f8f9fa	Alternate section backgrounds
Border	Light Grey	#dee2e6	Card borders, dividers, table lines
Text Primary	Navy Text	#0a1628	All headings
Text Secondary	Grey Text	#4a5568	Body copy
Text Muted	Muted	#718096	Labels, captions, placeholders

6.2 Typography

Display Font	Syne — all H1/H2 headings. Weight 700/800. Tracking: -0.025em to -0.035em.
Body Font	Plus Jakarta Sans — body text, nav, UI labels. Weights 300/400/500/600/700/800.
Mono Font	JetBrains Mono — eyebrows, tags, code-style labels. Weights 400/500.

H1 Hero	Syne · clamp(3rem, 7vw, 6rem) · Weight 700 · Line-height 1.02 · Tracking -0.035em
H2 Section	Syne · clamp(2rem, 4vw, 3.2rem) · Weight 700 · Line-height 1.1 · Tracking -0.025em
Body text	Plus Jakarta Sans · 1rem (16px) · Line-height 1.75 · Weight 400
Eyebrow label	JetBrains Mono · 0.75-0.8rem · Weight 700 · Uppercase · Letter-spacing 0.08em · Green colour
Google Fonts	<code>fonts.googleapis.com/css2?family=Plus+Jakarta+Sans:wght@200;300;400;500;600;700;800&family;=Syne:wght@400;500;600;700;800&family;=JetBrains+Mono:wght@400;500</code>

6.3 Spacing & Layout

Max width	1200px — centred, auto margins
Section padding	100px top/bottom desktop · 72px tablet · 60px mobile
Page margins	6vw left/right — scales with viewport, min 20px on mobile
Card gap	1.5rem (24px) standard · 1rem (16px) compact
Card padding	1.75rem (28px) all standard cards
Border radius	sm: 8px · md: 14px · lg: 20px · xl: 28px
Nav height	68px — fixed, always visible
Grid system	Desktop: 3-4 col · Tablet 1024px: 2 col · Mobile 768px: 1 col

6.4 Component Library

Component	Specification	Variants
Primary Button	Green fill · White text · 8px radius · 0.75rem 1.75rem · hover: lift + shadow	Arrow icon version
Secondary Button	White fill · Navy text · 1.5px border · hover: green border + green tint bg	Text-link version
Dark Button	Navy fill · White text — for dark/green sections	Glass/transparent version
Badge / Pill	100px radius · small text · pulsing dot variant for "live" states	Amber / Green / Purple versions
Service Card	White bg · 1px border · 14-20px radius · hover: border glow + shadow + 2px lift	AI card: purple tint bg
Dashed Card	Dashed border → solid on hover — for mentor "coming soon" cards	
Info Box	Green tint bg · green left border — for quotes, key facts, callouts	Purple tint for AI callouts · Navy for dark sections
Data Table	Navy header row · alternating grey/white rows · 0.4px grid lines	
Section Eyebrow	Green mono text · 20px green bar before text · uppercase · 0.08em tracking	Centred version
Stats Block	Large gradient number + small muted label · inside grid	Dark (navy bg) and light versions
Bento Grid	Asymmetric card grid (some cards span 2 cols) — used for AI features section	

SECTION 07

Animations & Interactions

7.1 Three.js Hero Background

Library	Three.js r128 via CDN. Alternative: react-three-fiber if using React/Next.js.
Particles	1,800-2,000 points · 60% green, 25% white, 15% amber · size 0.16-0.20 · slow upward drift · wraps from bottom
Torus rings	3 rotating torus rings · green/teal · opacity 0.15-0.25 · each different axis and speed
Wireframes	2 icosahedra wireframes · opacity 0.08-0.12 · slow rotation
Parallax	Camera follows mouse — subtle factor 0.025. Always looks at scene origin.
Performance	Pause when not in viewport. Max pixelRatio: 2. Degrade gracefully on low-end mobile.

7.2 Services Page — VR Solar System Canvas

Scene	Animated 3D solar system — glowing sun, 4 orbiting planets, orbit ring lines, star field
Colours	Green/amber/navy palette — matches WayInsight brand
Badge	"VR Session Active" overlay with pulsing green dot
Interactivity	Camera slowly moves up/down. Click module list items to change sun colour.

7.3 Services Page — AI Chat Demo

The AI section must include a live interactive chat demo. User types a question about a school subject, the AI responds. This is the most powerful demonstration of the AI service.

Implementation options: (A) Connect to Anthropic Claude API with a system prompt focused on school curriculum. (B) Use pre-written demo replies for common questions. Option A is preferred if budget allows.

Chat UI	Dark card with avatar, "WayInsight AI Tutor" header, "Online" indicator
Pre-loaded msgs	"Sir, why does the Earth orbit the Sun?" → AI explanation with emoji · natural, curriculum-relevant
Input	Text input + send button · user can type real questions · AI responds
Language toggle	Show Hindi / English toggle button to demonstrate bilingual capability

7.4 Scroll Reveal & Micro-Interactions

Scroll reveal	IntersectionObserver. Start: opacity 0, translateY 24px. End: opacity 1, translateY 0. Duration 0.65s ease.
Stagger delays	d1: 0.08s · d2: 0.16s · d3: 0.24s · d4: 0.32s
H1 animation	Each line slides up from clip. Timing: cubic-bezier(0.16, 1, 0.3, 1). Delays: 0.15s, 0.28s, 0.41s.
Card hover	translateY(-2px to -4px) · border-color change · box-shadow appear · 0.25s ease
Button hover	translateY(-1px to -2px) · shadow increase · background darken · 0.2s ease
Navbar	Scroll > 20px: backdrop-filter blur + box-shadow
Form focus	border-color → green · 0 0 0 3px rgba(13,110,85,0.1) glow

SECTION 08

Recommended Tech Stack

Option A — Static HTML/CSS/JS (Fastest)

HTML/CSS/JS	Vanilla. CSS custom properties for design tokens. No framework required.
Three.js	CDN: cdnjs.cloudflare.com/ajax/libs/three.js/r128/three.min.js
Forms	Formspree.io or Netlify Forms — free, no backend, emails delivered to iamsumant333@gmail.com
Deploy	Netlify Drop or GitHub Pages — free, instant
AI Chat	Fetch to Anthropic API from client, or static demo replies in JS

Option B — Next.js / React (Best Long-Term)

Framework	Next.js 14 with App Router
Styling	TailwindCSS v3 + shadcn/ui
3D	react-three-fiber + @react-three/drei
Animation	Framer Motion for scroll reveal and transitions
AI Chat	Anthropic SDK via Next.js API route (server-side API key — secure)
Deploy	Vercel — best for Next.js, free tier sufficient

Performance Requirements

FCP	First Contentful Paint under 1.5s on 4G
TTI	Time to Interactive under 3s on 4G mobile
Lighthouse	Performance > 85 · Accessibility > 90 · Best Practices > 90 · SEO > 90
Images	WebP format · lazy load · max logo 100KB
Mobile first	Design and test mobile before desktop — majority of Indian users are on mobile
Three.js	Pause when not visible · pixelRatio max 2 · 60fps desktop / 30fps mobile minimum

SECTION 09

Complete Website Copy — Ready to Use

All copy is provided below exactly as it should appear. Developer pastes verbatim — do not rewrite.

Stat 3	3 Services: AR + VR + AI

HOME — WHAT WE DO

Eyebrow	What We Do
H2	An End-to-End Immersive Learning Service
Subtitle	WayInsight is not a product company — we deliver complete, managed learning experiences. The school's only responsibility is to have students ready.
Card 1	Virtual Reality (VR) — Students step inside 3D worlds. Stand on Mars. Walk through the human heart. Witness tectonic plates collide. Spatial memory that textbooks cannot create.
Card 2	Augmented Reality (AR) — Point a tablet at a textbook page and watch it come alive. 3D models that rotate, animate, and respond to touch. The book becomes a portal.
Card 3	AI-Powered Tools — Bilingual AI tutor (Hindi + English), adaptive quizzes, concept gap detection, teacher dashboards, and automated session reports. Intelligence built into every lesson.

HOME — PROBLEM

Eyebrow	The Problem
H2	India's Education Gap is Widening
Body	250 million students. 1.5 million schools. A fundamental gap: the tools to make abstract concepts visible simply do not exist in most classrooms. Science without labs. Geography without maps that move. Mathematics without shapes you can hold. WayInsight was built to change that.
Stat 1	250M+ students in Indian schools
Stat 2	75% higher retention with immersive learning vs textbooks
Stat 3	87% of schools have no functioning science lab
Stat 4	0 AR/VR tools available in most Indian classrooms today

HOME — HOW IT WORKS

Eyebrow	How It Works
H2	Three Steps to Transform Any Classroom
Subtitle	Minimal disruption. Maximum impact. Seamless execution. Works in any school, anywhere in India.
Step 01	School Books a Session — Pick a subject and date. WayInsight handles all hardware, content, and logistics. No setup required from the school.
Step 02	WayInsight Arrives — Our trained facilitator arrives 15 minutes early. Runs the full 45-minute immersive session. Packs up cleanly afterward.
Step 03	School Gets a Report — Within 24 hours: an AI-generated session report. Topics covered. Student engagement data. Recommended follow-up activities.

HOME — CTA STRIP

H2	Ready to Transform Learning at Your School?
Sub	Schools, government bodies, and CSR partners across India — let's talk.
CTA	Get in Touch

SERVICES — HERO

Eyebrow	Our Services
H1	Everything a School Needs. Nothing It Doesn't.
Sub	Three services. One managed provider. Zero upfront cost. Built for every school in India.

SERVICES — VR

Eyebrow	Service 01
----------------	------------

H2	Virtual Reality Learning Sessions
Body 1	Put on a VR headset and step inside the concept. Students are transported to the surface of Mars, inside the human heart, or witnessing tectonic plates collide — building spatial, emotional memory that textbooks simply cannot create.
Body 2	All hardware is provided and managed by WayInsight. Standalone VR headsets — no PC, no cables, no IT setup required. Works in any classroom, anywhere.
Feature 1	Fully curriculum-aligned — every module mapped to NCERT and state board syllabi
Feature 2	Trained facilitator on-site — manages the entire session end-to-end
Feature 3	45-minute session format — fits within a standard class period
Feature 4	Classes 6, 7 and 8 — Science, Geography, History and Social Studies

SERVICES — AR

Eyebrow	Service 02
H2	Augmented Reality Learning Sessions
Body 1	AR overlays 3D content onto the real world. A student points a tablet at their existing textbook page and sees a fully three-dimensional, rotatable, labeled model floating above it.
Body 2	No new textbooks needed. AR enhances what schools already have — turning every printed diagram into an interactive 3D experience.
Feature 1	Works on standard tablets — provided by WayInsight, no school hardware needed
Feature 2	Textbook-integrated — scans the school's existing books
Feature 3	Interactive 3D models — rotate, zoom, tap to learn
Feature 4	Ideal for Biology, Chemistry, Geography, Mathematics

SERVICES — AI TOOLS

Eyebrow	Service 03
H2	AI-Powered Education Tools
Intro	WayInsight's AI layer makes every session smarter. Students get a personal tutor. Teachers get actionable data. Schools get measurable outcomes.
AI 1	Bilingual AI Tutor — Students ask questions in Hindi or English. AI gives instant, curriculum-relevant explanations. Works fully offline after initial sync.
AI 2	Adaptive Quizzes — Questions adjust difficulty in real time based on each student's performance. Personalised for every learner.

AI 3	Concept Gap Detection — AI identifies exactly which concepts each student struggles with and flags them for the teacher automatically.
AI 4	Teacher Dashboard — Real-time class performance, concept mastery heatmaps, automated weekly reports readable in 5 minutes.
AI 5	AI Session Reports — Generated automatically after every session. Topics covered, engagement data, student-level insights, follow-up recommendations.
AI 6	School Admin Portal — Principal and education officer analytics: usage tracking, outcome trends, compliance reports.
Key line	Not just VR content — an intelligent system that learns from every session and makes every teacher more effective.

ABOUT — FOUNDER

H2	From Quiet Beginnings to Bold Visions
Para 1	Sumant Kumar Yadav was raised in Badhauna Tanra, a small village in Samastipur, Bihar — far from the language of startups or elite institutions. From a farmer family. Educated entirely in government schools, later graduating from R.B. College under Lalit Narayan Mithila University.
Para 2	At just 19, Sumant launched his first venture with no mentors, no network, and no safety net. He built Tasty Food Boutique in Patna into one of the city's most trusted dining destinations — ranking No. 1 on Swiggy and Zomato among 700+ outlets. He later co-founded The Bharat Service, connecting skilled professionals with customers.
Para 3	Now at 23, while pursuing his MBA from IIM Sambalpur (Batch 2025-27), Sumant is building WayInsight — an AR/VR/AI startup designed to give every Indian child the learning experience he never had but always deserved. Featured as Cover Story, Fame Finders Magazine 2026.
Quote	"I grew up in a classroom where imagination had no tools. WayInsight is my answer to that. Every child who experiences a concept come alive in VR — that is the entire mission. We are not just building a startup. We are building the classroom I never had."
Cite	— Sumant Kumar Yadav, Founder & CEO, WayInsight

#	Deliverable	Format	Notes
1	All 4 pages complete and linked	HTML/CSS/JS or Next.js	Home, Services, About, Contact
2	Three.js hero animation	Integrated	Particles + parallax + rings
3	Three.js VR solar system (Services page)	Integrated	Orbiting planets scene
4	AI chat demo (Services page)	Integrated	API or static demo replies
5	Responsive mobile layout — all 4 pages	Tested	iPhone 13 + Pixel 7 minimum
6	Contact form working	Connected to Formspree	Emails to iamsumant333@gmail.com
7	All meta tags + OG image + favicon	In head of each page	SEO section of this brief
8	Source code — clean, commented	GitHub repo or ZIP	Well-structured, maintainable
9	Deployed live URL	Netlify or Vercel	Free hosting is fine
10	Lighthouse report screenshot	PDF or PNG	All scores > 85

Suggested Build Timeline

Phase	Task	Days
Phase 1	Setup + design system + component library	1-2
Phase 2	Home page — full with Three.js animation	2-3
Phase 3	Services page — VR canvas + AR section + AI section	2-3
Phase 4	About page — founder + team + mentors	1-2
Phase 5	Contact page + Formspree form integration	1
Phase 6	Mobile responsiveness + cross-browser testing	1-2
Phase 7	Performance optimisation + SEO + deployment	1

TOTAL		9-14 worki ng days
-------	--	-----------------------------

Final Note to the Developer:

WayInsight is a mission-driven startup building the most important thing in India — better education for children who deserve it. The website must feel as serious and ambitious as the mission itself.

Three services must be given equal visual weight: AR, VR, and AI. The AI section must be visually distinct — use the purple accent colour and a bento grid layout to make it feel like an intelligent platform, not just another feature. The chat demo is the most important interactive element on the entire site.

When in doubt, ask: "Would this look at home on stripe.com?" If not — rebuild it until it would.
